

- Master Plan & recent needs assessment prioritize expanding library services footprint in the SE area to meet increased demand for
 - core library services and collection growth
 - higher-impact programs
 - innovation and collaboration spaces

- Committed to investing up to \$20 million in the project & pay its fair share of site development and O&M costs.

- Develop flexible, adaptable spaces for creativity, innovation, and collaboration which could include
 - makerspaces
 - theater and event space
 - audio-visual creation

- Would like a plan for the SE project by fall 2023 & continues to look at options to expand core library services.

MODERN LIBRARY INNOVATION
